

Literacy Volunteers of Santa Fe
invites you to a tutor Workshop

Ask Me Another: Helping learners ask questions with the Question Formulation Technique

The Question Formulation Technique (QFT) helps tutors working in 1-1, small group, and classes create a learning environment that encourages adult multilingual learners to ask questions. This technique helps the learner take control of their learning, explore lesson content meaningfully, and increase their confidence and participation in civic life.

Presented by Jayme Adelson-Goldstein

April 14, 2025, 1:30 p.m. - 3 p.m.

Location: Room 503

Santa Fe Community College - Adult Education Department
6401 Richards Avenue, Santa Fe, NM 87508
